BIOLOGIA PLANTARUM

TOMUS

5

ACADEMIA SCIENTIARUM BOHEMOSLOVENICA

PRAHA 1963

COMMONWEALTH MYCOLOGICAL INSTITUTE
4 NOV 1963

Časopis pro experimentální botaniku
Journal for Experimental Botany
Журнал экспериментальной ботаники
Zeitschrift für experimentelle Botanik

Editor-in-Chief

B. Němec (Praha)

Executive Editor

B. Slavík (Institute of Experimental Botany,
Na cvičišti 2, Praha-Dejvice)

Editorial Board

C. Blattný (Praha)
J. Brčák (Praha)
I. Cetl (Brno)
P. Chouard (Paris)
A. Činčerová (Praha)
I. Hršel (Praha)
† K. Hrubý (Praha)
H. Kihara (Mishima)
J. Kloz (Praha)
A. L. Kursanov (Moskva)
Z. Landa (Praha)
M. Luxová (Bratislava)
P. Maheshwari (Delhi)
O. Moritz (Kiel)
K. Mothes (Halle/Saale)
S. Prát (Praha)
V. Rypáček (Brno)
M. Sosna (Praha)
P. Strebeyko (Warszawa)
H. Stubbe (Gatersleben)
J. Tupý (Praha)
F. W. Went (St. Louis)

This volume is dedicated to the 90th birthday of professor BOHUMIL NĚMEC

biologia plantarum

Časopis pro experimentální botaniku
Journal for Experimental Botany
Журнал экспериментальной ботаники
Zeitschrift für experimentelle Botanik

INDEX

Bibliography of professor Bohumil Němec 5
Bytchenkova, E. A.: The Study of Proliferation of Cambium and Parenchyma of Branches from Trees in Cultures in vitro 302
Cetl, I.: The Effect of Sterile Conditions on the Survival of Maize Kernels in Cold Soil 211
Čatský, J. see Slavík, B.
Černohorská, J. see Dvořák, M.
Činčerová, A.: Der Einfluss von Humussäure auf Wachstum und Veränderungen des freien Zuckergehaltes bei Winterweizenpflanzen, die im Dunkeln kultiviert wurden 109
Dostál, R.: Use of 2,3,5-triiodobenzoic Acid in Studies on the Growth Correlation Differences between Epigeous and Hypogeous Seedlings (*Linum* and *Pisum*) 68
Dvořák, M.: Participation of Ascorbinoxidase in the Respiration of *Cucurbita* Roots 287
Dvořák, M., Černohorská, J.: Polyphenol Oxidase in the Roots of *Cucurbita pepo* L. 298
Gavrilenko, V. F. see Rubin, B. A.:
Gichner, T. see Velemínský, J.
Gichner, T., Velemínský, J.: The Influence of Steptromycin on the Frequency of Induced Chromosome Aberrations 271
Hadašová, Z., Plhák, F.: Einfluss der Ackerquecke (*Agropyrum repens* L.) auf Wachstum- und Atmungsvorgänge der Weizenpflanzen 167
Hořavka, B., Petrů, E.: Anatomical Studies on the Origin of the Apical Meristem in Axils of the Highest Pair in Leaves in Chickweed, *Stelaria media* (L.) Vill. 249
Hrabětová, E., Tupý, J.: The Effect of β-D-fructofuranose in the Molecules of Sucrose and Raffinose in Relation to their Specific Action on Growth and Respiration of Apple-Tree Pollen Tubes 216
† Hrubý, K.: Pollination Interrelations in some Sour Cherry Cultivars 124
† Hrubý, K., Stanclová, Z.: Chromosome Numbers in some Pear Cultivars 198
Chernavina, I. A. see Rubin, B. A.
Kláštterská, I.: The Effect of Cytoplasmic Factors on the Variability of *Aspergilus* strains 100
Kloz, J., Turková, V.: Legumin, Vicillin and Proteins similar to them in the Seeds of some Species of the *Viciaceae* family (a comparative serological study) 29
Klozová, E.: The Production of Anthocyanins in *Impatiens balsamina* L. Blossoms after Acute Irradiation of the Uncoloured Petals 120
Kozinka, V., Nižnánsky, A.: Biometric Analysis of the Relationship between the Osmotic Pressure of the Cell Sap and its Refractive Index 77
Krekule, J., Teltscherová, L.: Über den Gehalt an auxin- und gibberellinähnlichen Stoffen bei jarowisierten und nicht jarowisierten Embryonen von Sommer- und Winterweizen 252

Linskens, H. F., Schrauwen, J. A. M.: Änderungen des Gehaltes an Sulphydryl-Gruppen während der Pollenmeiose und Pollenentwicklung 239
Luštinec, J., Pokorná, V.: Gibberellin-Induced Changes in Glycolysis and in Lipid Metabolism of Wheat Leaves 181
Luštinec, J. see Pokorná, V
Makovcová, O., Vaculík, P.: Über die Beziehungen zwischen der Wirksamkeit und der chemischen Struktur einiger Phenoxyessigsäuren 129
Musil, M.: Some Findings on the Course of Infections caused by Yellows-type Viruses in *Trifolium repens* L. Plants 33
Nátr, L., Špidla, J.: Assimilation Chambers for Studying the Photosynthetic Rates of Leaves and Spikes of Cereals 284
Nečas, J.: Inheritance of Development of Lateral Florets in Spikelets of Barley Spike 89
Němec, B.: Die Selbstspaltung der Mixoploiden Wurzelspitzen 15
